Nuestra experiencia con AMFI ha sido muy buena a lo largo de los años que lleva trabajando nuestro instituto con la organización. Nos han apoyado especialmente en la búsqueda de empresas e instituciones del ámbito sanitario y de electricidad-electrónica en Avezzano para la realización de prácticas por parte nuestro alumnado, así como facilitándonos la búsqueda de alojamiento y proporcionándonos información cultural durante su estancia. También nos han ayudado en la organización de movilizaciones de aprendizaje por observación para profesorado con resultados muy satisfactorios. Por ejemplo, recientemente un profesor de música de nuestro centro pudo compartir una semana de experiencias muy motivadoras en centros de Secundaria, conservatorios y escuelas de música de la región.
